MADE TO CREATE, SHARE TO INSPIRE

THE VISION

Subsequently, our society changes its suits from patriarchal to egalitarian by empowering its every inch. The real empowerment of the society comes from the empowerment of women. Though there are potentially talented women around, they are sometimes unemployed and struggling. I can proudly say that our website is only for women. It's moreover a guide to achieving empowerment through financial independence. Skilled labor is always in demand in the labor market. A question will be raised why sewing? Because of the demand which the sewing has.

Women are always considered as more patient laborers with high levels of concentration compared with men. Sewing tec is an online website for new fashion technology updates and for aspirants who want to select sewing as a profession. Since, 2020 we have had online classes, and now we reached more than a hundred courses on sewing and fashion technology. However, the classes are scheduled at the convenience of the clients. Rather than just learning a course Sewing tec paves a new path to the financial independence of the women.

ORIENTATION PROGRAMMES
CAFETERIA FOR CONFIDENCE
GAINING -CCG
EASY LEARNING
FAMILY ATMOSPHERE
BEST QUALITY IN TEACHING
JOB ORIENTED COURSES

Precisely, we focus on the job-oriented courses for women which will be scheduled at their convenient time. More than 130 types of dresses have been taught in the institution. We have one year diploma courses and Six months or three months category too. The tenure of the courses could be selected by the clients according to their demand and convenience. There are courses on hand embroidery and hand embroidery works. Both Indian and Western cloth patterns have been followed.

The digital era deconstructed the approaches in the apparel sector which is reflected in the incorporation of digital means of fashion designing. We provide computerized fashion technology which includes Photoshop, illustration, Corel Draw, paint, and different designs. The apparel sector can be considered one of the most competitive fields in the globalized market, where we make our students strong fighters!
